28 November 2012

Dear

"ACCESS TILE" TACTILE GROUND SURFACE INDICATORS APPROVAL

I refer to your letter dated 4 June 2012 seeking VicRoads' approval for the Access Tile product to be used as a ground surface indicator to the vision impaired.

VicRoads has assessed the product, including carrying out a site visit to observe the installation of the tiles on Mount Dandenong Road, Olinda, on 21 November 2012. As a result of the assessment, VicRoads considers the product as acceptable for use on declared arterial roads and freeways within the state of Victoria.

It is noted that the choice of tile colour is important, and those agencies requesting the installation of this product must be advised of the desired colour luminance contrast differential required under the current Australian Standard.

Should you have any queries regarding this approval, Mr Thuan Nguyen, Acting Manager, Road and Traffic Standards (Tel: 03 9854 2341), would be pleased to assist.

Yours sincerely

ROBERT FREEMANTLE
EXECUTIVE DIRECTOR – POLICY AND PROGRAMS
